

QUALITY POLICY

Elec Power Technologies Pty Ltd (EPT) is the largest multiple UPS manufacturer, approved distributor and service agent in Western Australia, providing professional and reliable sales and service expertise across a wide range of quality power protection equipment and manufacturers, including all facets of design, construction and installation.

Elec Power Technologies Pty Ltd (EPT) is dedicated to understanding our clients' needs and delivering a quality service that meets their expectations and contract specifications. Hence, the overall objective of this policy is to express our commitment to delivering quality services and products to our clients, in a responsive, sustainable, safe and cost-effective manner.

We commit to always complying with all relevant legislative requirements and industry codes whilst continually improving our Integrated Management System. Specific company objectives and targets are planned and regularly reviewed.

Our Quality Management System forms part of our Integrated Management System and is certified to ISO 9001 Management System International Standard.

Management is dedicated to the philosophy of continual improvement. To support this philosophy **EPT** has developed and implemented an Integrated Management System addressing workplace safety environmental and quality issues. The Integrated Management System is embraced by management and employees alike. Induction training of new employees ensures they are trained in the System as they join the Company.

All employees are responsible for the quality of their own work but are supported by Supervisors and documented procedures, where required.

Management fully endorses this Quality Policy and the HSEQ Manual that has been implemented.
